Press Release

EDF Invest sells its 18% stake in Teréga to Enagás

Paris, November 13, 2026

EDF Invest announces the signing of an agreement with **Enagás** for the sale of its **18% stake in Teréga**, the gas transmission and storage operator in southwestern France. **Enagás, already a shareholder in Teréga since July 2026**, will thereby increase its stake to **49.5%**, alongside existing shareholders Snam (40.5%) and Crédit Agricole Assurances (10%).

EDF Invest, a minority shareholder in Teréga **since 2013**, welcomes this transaction, which aligns with its **portfolio optimization and rotation strategy**. This deal ensures **continuity in shareholding** and strengthens Teréga's potential as a **key player in French and European energy infrastructure**. Under the leadership of its shareholders, **Teréga will continue its historical activities of transport and storage of gas to guarantee security of supply as well as the development of new infrastructures dedicated to renewable and low-carbon gases (biomethane, hydrogen and CO_2), in support of the energy transition.**

The completion of this transaction is expected **before the end of 2026**.

About EDF Invest

EDF Invest manages approximately **€12 billion** in unlisted investments from the EDF Group's Dedicated Assets portfolio and aims to reach around **€17 billion** in the coming years. Dedicated Assets are investments intended to cover future decommissioning costs of nuclear power plants in France. EDF Invest's mission is to diversify the Dedicated Assets portfolio by targeting three asset classes in France and abroad: **infrastructure, real estate, and unlisted investment funds**.
